The Coalition for Physician Enhancement (CPE) is a consortium of professionals with expertise in quality assurance, medical education, and the assessment, licensing, and accreditation of referred physicians seeking higher levels of performance in patient care.

Our mission is to support and develop expertise in assessment and enhancement when competence and/or performance are to be assessed.

Join us for our Spring meeting in Texas!

Program Objectives

Upon completion of this educational program the participant will be able to:

1. Discuss factors that impact patient safety as it applies to physician assessment, including:
 - a. An understanding of systems issues and how they impact medical care;
 - b. How communication, physician behaviors, and local systems factors can affect physician performance and patient care;
 - c. Clinical diagnostic reasoning, including educational strategies used to promote and enhance it;
 - d. An understanding of diagnostic error and factors that contribute to it.
2. Understanding current terminology/taxonomy used in the field of clinical decision making and diagnostic error.
3. Discuss clinical decision-making and other relevant topics in small groups sessions.
4. Collaborate and strengthen relationships with colleagues in the area of physician assessment and professional enhancement.
5. Learn about research and other projects being undertaken by members of CPE.
6. Navigate the recently updated CPE web site, including how to access the newly formed repository of shared documents and tools that can be used and accessed by CPE members.

Continuing Medical Education Credits have been applied for through the Texas A&M Health Science Center Coastal Bend Education Center.
